

Exploratory Data Analysis (EDA) Report

1. Data Overview

- Total records, missing values, duplicates.
- Time range of the dataset (e.g., 2014–2017).

2. Sales & Profit Distribution

- Total Sales, Profit, and Quantity.
- % contribution of each **Region** (e.g., West: 33%, East: 29%, etc.).
- % contribution of each **Segment** (e.g., Consumer: 51%, Corporate: 30%, Home Office: 19%).

3. Category & Sub-Category Analysis

- Sales & Profit share by **Category** (Technology, Furniture, Office Supplies).
- Sub-categories with highest & lowest profit margin (e.g., Copiers ~ highest, Tables ~ losses).

4. Order Priority & Shipping

- % of orders by **Order Priority** (High, Medium, Low, Critical).
- Most used **Ship Mode** (Standard Class often ~60%).

5. Regional Performance

- Compare sales & profit across regions (West, East, Central, South).
- Highlight best-performing & worst-performing states.

6. Trend Analysis

- Yearly/Monthly sales growth in % (e.g., YoY growth).
- Seasonality patterns (e.g., spikes during Q4 / festive seasons).

7. Customer Segment Insights

- % of revenue from **Consumer, Corporate, Home Office**.
- Which segment brings more profit vs more orders.

8. Key Findings

- Categories causing losses (Tables, Bookcases, etc.).
- High-profit categories to focus on (Copiers, Phones).
- Shipping & discount strategies impacting profitability.
